30-40	LO	6,000	1 Compartment, Round Hatches, Pneumatic Gates	Plastic Pellets	10307

### I'M BAAACK!

The Rail Industry does get into your system and to date they have not found a cure for it. This is one of the greatest industries in the world. If you think about it, you can't find a consumable good, ingredient, or part thereof, that has not been involved in transportation via rail. There's the lumber industry that supplies material for housing, furniture and right down to the pencil you use at your desk, the chemical industry that provides us with everything from the material to de-ice planes, the plastics that make your computer to the toothpaste you brushed your teeth with this morning. I could keep going, but I'm sure you know what I am getting at.

The rail industry also has some of the friendliest people to work with you could ever ask for. We all have those days were we wish we didn't have to go to work, everybody feels that way every once in a while. But for the most part, the people we deal with on a daily basis continue to keep a positive attitude. I have never enjoyed a job more than this one. I was told once by a wise man that if you find a job you love, you will never work a day in your life. I have found that job!

If there is ever anything TransMatrix, Inc. can do to help you with your rail transportation needs give us a call and maybe we can help you enjoy your job just as much.

Jeff King
