RAIL, RAIL, EVERYWHERE!

Yes, the rail business has really turned around in the last few months. Early last year, you could find just about any type of car sitting around waiting for a home. Literally thousands of grain cars were taking up almost every piece of storage track they could find. There was one supplier that had over 800 gondolas available for lease. Tank cars were available in any size you could imagine.

Yes, it really has turned around. Now there are grain shippers contemplating 3,600 cu. ft. cars, for grain!! And we can't find them either! The gondolas are all out moving. So are the flat cars and most of the tanks! Because the rail business is so busy, every time you drive up to a railroad crossing, you should expect the lights to start flashing!

It's pretty obvious we're running out of things to discuss. So we have a proposal for all of you in the rail business. If you have a subject or issue pertaining to our business that you would like to address or talk about, give us a call at TransMatrix, Inc. and we may be able to put your thoughts on "The Back Page" of an upcoming issue of "The Inside Track". Who knows, it might be fun!
