25	LO	3,000	3 Compartments, Round Hatches, Gravity Gates	Sand	10479

### Spring Is In The Air

Here we go again! The weather is changing and so is the direction of our thoughts. For those of us in the north, the days are getting longer and the sunny, warmer days are filling our heads with visions of outdoor activities. Inviting the neighbors over for a Sunday barbecue, taking the kids to the local park or just putting away those winter clothes and getting those golf clubs polished up. The change in seasons also means changes in our needs for railcars.

For some, the need for railcars will be declining. Liquid petroleum gasses, such as propane, will start to decline with the warmer temperatures, along with the need for de-icing materials. On the other hand, some commodities will be on the incline, with the need for building materials, such as lumber, or the need for asphalt in the road construction business. In either situation, "The Inside Track" is designed to help you locate the cars needed, or find that home for your excess. In addition, our sales department is constantly in contact with shippers to determine the market changes, along with the needs that follow. Our main goal is to assist our customers and to insure we do our best to satisfy your needs.
