THE WHITE PASS & YUKON RAILROAD

With the Gold Rush moving ahead full steam and the routes into the Yukon backbreakingly difficult, four men saw an opportunity and stepped up to create a better way through the White Pass. Samuel Graves, John Hislop, E.C. Hawkins and Michael J. Heney decided the time was right to push a rail line through the coastal mountains.

In April of 1898 the White Pass & Yukon Railroad Company was created. With Sir Thomas Tancrede bringing investors from London, the line was started by purchasing the right of way from George Brackett, then the owner, for \$60,000.00. On May 28, 1898 construction began.

Construction reached the summit of White Pass on February 20, 1899. In the 20 miles from Skagway to the summit, the elevation rises 3,000 feet with grades of nearly 3.9%. 16% turns hang off of steep cliffs. The tunnel at mile 16 was dug with temperatures as low as minus 60. By July 6, 1899 construction reached Lake Bennett. At this time the WP&YR was the northernmost railroad in the Western Hemisphere.

With crews working from the north as well, a ceremonial Golden Spike was driven by president Samuel Graves on July 29, 1900. It took only 26 months for 35,000 men, 450 tons of explosives and ten million dollars to build the 110 miles of track. In 1994 the WP&YR was recognized as an International Historic Civil Engineering Landmark along with the likes of the Eiffel Tower, the Statue of Liberty and the Panama Canal.
