THE GREAT RAILROAD STRIKE OF JULY 1877

After the Civil War ended there was a period of extreme growth and over expansion of the railroads. In 1873, the failure of financial giant Jay Cooke & Company created the spark that set off the Panic of 1873. The US economy collapsed. The NYSE closed for ten days. A quarter of all railroads in the US went bankrupt. Unemployment reached 14% by 1876.

By July of 1877 tensions had grown between the B & O Railroad and its employees. The Statesman newspaper of Martinsburg, WV chronicled the events leading up to the Great Strike. In an article dated July 24 1877, The Statesman related that in their most recent report, the B & O had shown no reduction in earnings. B & O president, John W. Garrett had declared the previous year's earnings were "entirely satisfactory". Shortly thereafter a reduction in wages was issued to all train hands. Because of the economy of the time, this was accepted by the employees. Almost immediately thereafter a second reduction was put into effect. Again the reduction was accepted. On Monday July 16, a third reduction was issued. This time the employees could no longer survive. Having reason to suspect the greed of management, the reduction was resisted and a strike ensued.

Upon arriving in Martinsburg each of the train crews quietly ran their trains onto sidings and shut them down. The mayor of Martinsburg, Major A. P. Shutt, appealed to the train hands to move their consists along, but his appeals were ignored. The mayor then ordered the police to intervene, but they were also unable to convince the train crews to continue. Seventy engines and six hundred freight cars quickly massed in the Martinsburg yard.

To be continued.....
