## MONSTER CRASH

For one day Crush, Texas was the second largest city in Texas. An incredible spectacle was planned for that day in 1896. Somehow Mr. William George Crush, a passenger agent for the Missouri, Kansas and Texas Railroad had convinced company officials to allow him to stage an event where he would crash two trains together. Perhaps it was a good way to dispose of obsolete engines or perhaps it could draw publicity to the rail line. Either way, as a spectacle, it was a huge success.

For months in advance, Old Engine No. 999, painted bright red and Engine No. 1001 painted an equally bright green were shown throughout the state. Flyers and bulletins proclaimed the upcoming event. That summer the setup ensued just north of Waco in a low valley perfectly situated to view the four mile track. Two wells were dug, two telegraph offices were built along with a bandstand, a reporters stand a restaurant and a grandstand for the event. A 2,100 foot depot was set up so people would know they had arrived in Crush, Texas. George Crush thought there would be about 20,000 folks in attendance, but by 3:00 pm more than 40,000 had arrived. There was no admission to the event. Rather the Missouri, Kansas and Texas Railroad or "Katy" as it was affectionately known had charged \$2.00 per person to transport them to the festivities. So many wanted to attend that some were forced to ride the tops of the cars to get there.

Each engine pulled several cars loaded with rail ties. At 5:00 pm the two engines backed away to each end of the four mile track. George Crush rode a white horse to the center, raised his white hat, then whipped it down. The two engines surged forward and raced down the track. With an enormous crash the two trains collided. Their boilers ruptured and exploded, sending twisted metal and debris into the crowd a hundred yards away. Two men and a woman were killed. Six others were seriously injured. The crowd, after recovering from the blast, surged forward to scavenge souvenirs.

The effect of the collision had been seriously underestimated. What had originally been set up as a publicity stunt appeared to have backfired. George Crush was immediately fired. But, as there was little backlash of the event, George was hired back the next day. The railroad quickly paid out any claims lodged against it.
