10	PD	5,150		Flour	12522

RETIRING RAIL CARS

Many cars retired a month ago and can no longer ship product. Hopefully they are all at the unload point. These cars will still need to be cleaned, prepped for scrap and on their way to the scrap yard. If this is more than your schedule currently allows, TransMatrix, can help with this situation by finding a shop to clean them or finding the best scrap or sale value for your cars.

For those looking to buy storage cars, culverts or bridges, time is slipping away on the best time of the year to fill those needs. It is likely that the cars you need have retired, and are ready to fill your requirements.

RAIL CAR REPAIR AUDITING

Sorting out railcar repairs or qualifications can be convoluted, confusing, as well as time consuming. Repairs may not make sense, appear to be duplicated, or you may just want another pair of eyes reviewing repair bills or estimates.

Start your year off right. TransMatrix can help you find the right solution!
