DUFFIELDS DEPOT

Built in 1839, Duffields Depot is the second oldest surviving B&O depot. It is located in Duffields, WV near Shenandoah Junction. It is a one and a half story stone structure built into the side of a hill with a nearly equal wooden addition extending to the west. The stone portion was built of local limestone. The tracks run past the low side and the road along the top. The depot was built with \$2,500.00 given to Richard Duffield by the B&O for the right of way through his property.

Duffields Depot thrived, serving local farmers and passengers of the B&O, from 1839 to 1883. The B&O railroad was a vital part of the Union Army's communication and supply systems during the Civil War. In 1864 through 1865, the line was targeted repeatedly near Duffields Depot by Confederate Colonel John Singleton Mosby and his 43rd Virginia Battalion in attempts to interrupt these systems. In the first instance, Mosby attacked the depot itself and took 50 prisoners, including two lieutenants. Throughout the war, the Union Army stationed personnel in and around the depot.

Though it has remained standing for 177 years since it was constructed, much of the wooden portion has collapsed and the lower level of the stone section has partially filled with silt. Work has been done to preserve the structure over the last several years. A non-profit organization called Duffields Station, Inc. was able to secure a grant and replace the roof over the stone portion. They were also successful in gaining National Register status in 2007. Unfortunately, funds were withdrawn from the grant and the program was unable to be completed. In February of 2018 Duffields Station, Inc. gave the depot to The Jefferson County Historic Landmarks Commission.

The Commission will dedicate time from its volunteer staff to begin work at the site. Projects will include on-site cleanup, fundraising and potential acquisition of a small parcel that is critical to the potential public use of the site. Volunteers and donors will be needed! Consider joining this important project by contacting the JCHLC at HLCinfo@jeffersoncountywv.org or (304) 728-3228, ext. 1105.
